

Curriculum Vitae

Leadership Positions

As far as leadership positions on a personal level, coming this 11th grade I hope to join more clubs and become more involved socially within the school. I am however, part of the top 10% of Macomb County students that have been accepted into the prestigious school of Macomb Mathematics Science and Technology, MMSTC. Most of my hard work has been dedicated to academics thus far. I do consider myself to be of leadership quality through integrity and my character values. I hope to always improve and grow and have the opportunity to show that I can be a leader. I was also previously a member of the Junior National Honor Society.

Service Activities

Grade 9

-Rodgers Daddy Daughter Dance

3 hours

Assisted in set up and event activities

-Rodgers Mother Son Event

3 hours

Assisted in set up and event activities

Essay Questions

I would like to be in the National Honor Society to bring forth future opportunities and become more involved in community service. I would liked to be recognized for my hard work as a student and community member. I strive to better my academic profile everyday and feel this would really prove my character and integrity. Serving as a member of NHS

would allow me to serve in the community and open that door for me to meet new people. I can also share ideas I have for the school with people who really care for it.

Through my membership in the Honors Society I hope to gain connections with people and recognition for my hard work. This membership will give me opportunities I feel you won't get outside the group. That includes now and for my future. NHS will help me gain new relationships with my classmates and community that can help me grow as a person.

Major contributions I hope to bring to the group are my full time, ideas, and help. I will participate in every project and meeting. I will give this group my full time as I have much respect for the title it will give me. Through this membership I will provide great service and am open to helping with anything.

I stand out from other students because I refuse to give up. I was under the worst pressure so far in high school last year but that didn't stop me from trying even harder, meeting with people, and getting help I needed to be proud of my grades and progress. I will not fail to be apart of this well respected group and believe I can be a good role model of this society in Lake Shore. Some students don't care to help out the school or the community but I am looking forward to becoming more active in the school.

Personal Statement

Hello! My name is Chloe Mainhardt. I greatly appreciate you taking a look at my curriculum vitae. I am currently a student at Lake Shore High school as well as the Macomb Mathematics Science and Technology Center. My goal throughout high school is to graduate with a GPA over 3.5, while I work my way to a University and I am very determined to do so. I have always pushed myself with perseverance to do the best work I could and I hope that pays off for NHS. After high school I hope to study wildlife and marine biology to take with me down to Florida to rescue, rehabilitate, and research animals.
